

## CONTAINWATT® FIELD CAMP

— GREEN ENERGY AUTONOMOUS  
SOLUTION

Containwatt offers a wide range of highly mobile field camp options from stand-alone units to multi-unit systems.

Our solution meets many operational requirements according to different self-sufficiency levels. Based on an eco-responsible approach, our solution answers basic human needs such as :

- Shelter in an air-conditioned environment
- Refrigerated food storage
- Kitchen, laundry room.
- Sanitary facilities.

### CONTAINWATT MEETS MAJOR OPERATIONAL NEEDS REQUIRING ELECTRICITY IN OFFGRID CONTEXTS

- **Maintenance** workshop
- **Refrigeration** of sensitive material
- **Recharging** of electrical equipment

The electrical self-sufficiency of each Containwatt unit offers highly flexible camp layout in terms of the organization of living areas and technical areas, a high level of resilience in the event of attacks thanks to an inherently distributed system, and facilitates safeguarding of people and property (shelter protection, specific zone for safekeeping of sensitive equipment and materials, etc.)

**ASSEMBLED IN LESS  
THAN ONE DAY**
